Susan Bates®

The story of Susan Bates® began with the company's namesake Carlton Joseph Bates (C.J. Bates), in 1873. Originally C.J. Bates sold unbranded crochet hooks made from scraps of ivory or bone and then wood and eventually aluminum. He initially began marketing the brand as Barbara Bates then later replacing it with Susan Bates. The brand is synonymous with innovation and high quality.

SUSAN BATES® TOOLS & ACCESSORIES

When you start your creative project with Susan Bates Tools and Accessories, you'll have a lifetime of creating memories because we have you covered.

Susan Bates® yarn tools and accessories are available in unpackaged and packaged options. Unpackaged are merchandised in open displays which create a space saving modular system increasing product capacity while delivering on sustainability. Restocking also becomes easier at the associate level because of the color-coded tooling system of Susan Bates® Silvalume®. The bulk displays are engaging and offer the consumers the opportunity to feel the product before purchasing.

TWIST + LOCK™

Crocheting just became easier with the newest Susan Bates® tool:

Twist + Lock™

US Patent USD964014/Canada 199137

®Coats & Clark.

The Twist + Lock™ Interchangeable Crochet Hook offers a convenient way to take along or store two different sized hooks in the oversized soft-touch handle. Simply select the hook size, place the end in the cavity of the handle then twist and lock in place. After inverting the components on either end of the handle, just drop it in your bag. No fear of it catching on surrounding items. No need for additional tools to complicate the process!

The elongated soft-touch handle provides comfort for larger hands. Hooks range in size from US F - K (3.75mm to 6.50mm) and include additional accessories such as a yarn cutter option. Crochet hook heads feature the popular in-line construction for uniform stitching and reduced wrist strain. The starter set comes with the handle and two crochet hooks or one crochet hook and one yarn cutter. Additional sizes and other accessories can be purchased separately to build a custom set.

CROCHET

The Susan Bates brand is unique in two different ways – the in-line crochet hook head and the color-coded size identification. Susan Bates crochet hooks feature our exclusive in-line crochet hook head for easier and more accurate crocheting. The diameter of the hook portion is the same as the forming portion of each crochet hook...providing smoother crocheting and a more accurate stitch gauge.

Silvalume

Our Silvalume® line is anodized aluminum offering a velvety smooth finish, in-line crochet hook head and color coded for quick size selection. Handles are offered in original Silvalume, bamboo and soft ergonomic handle.

Luxite

Specially formulated durable plastic hooks that are warm, lightweight and value-priced.

Specialty

Easily create projects from Tunisian crochet with the aluminum or plastic Afghan Hook; offered in single and double ended.

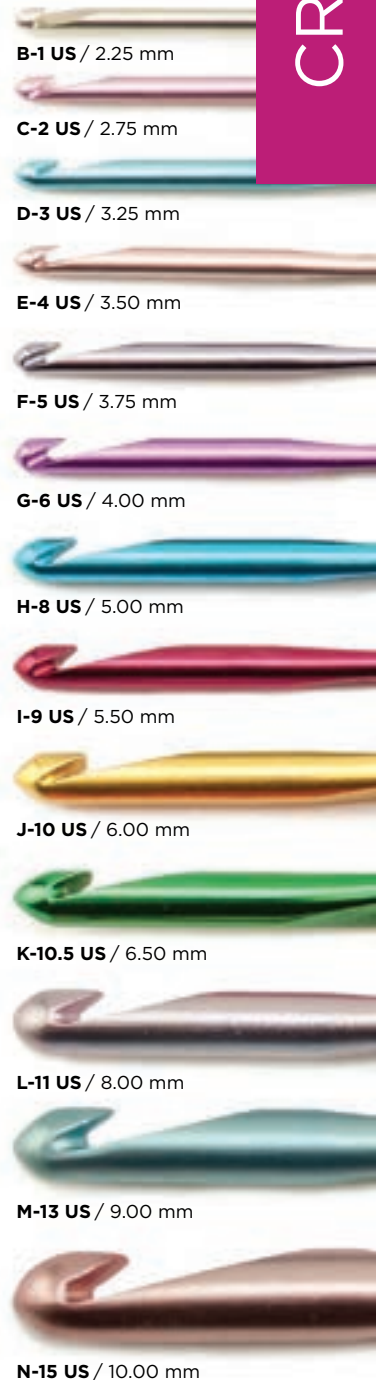

Steelites

High quality nickel-plated steel is perfect for creating fine crochet lace projects like doilies, table cloths and edgings. Handles are offered in original Steelite and soft ergonomic.
